Subject	CubelQ Reminder for FIS Regulatory Patches

FIS is currently working to produce patches for Prime Compliance Suite (PCS™), accommodating FinCEN's updates to the Currency Transaction Report. The updated CTR form and e-file format are required to be in use by May 2018.

This is a reminder that FIS will create patches for this and other regulatory changes for only Prime Compliance Suite, versions 9.1 and above. This is in accordance with the client communication "Support Sunset Announcement" sent on October 6, 2017.

Prior to installing the patch with the CTR updates, you must have installed all previous patches for your applicable version.

CubelQ will provide a future client communication when the CTR updates are available for each Prime Compliance Suite version. This communication will outline the updates, as well as the process to request the patch.

If you have any questions please contact your Client Services or Relationship Manager or our Support Help Desk via e-mail to: sw.support@cubelq.gr.
